

3 WAYS TO CHECK FOR A WATER LEAK

1. CHECK THE RED TRIANGLE. IF THE TRIANGLE IS MOVING THAT MEANS IT IS CALLING FOR WATER.

2. DRAW A LINE WITH A MARKER WHERE THE RED POINTER IS. DO NOT RUN WATER OR FLUSH TOILETS. AFTER SEVERAL HOURS, CHECK BACK TO SEE IF THE POINTER HAS MOVED.

3. WRITE DOWN THE NUMBERS THAT ARE DISPLAYED ACROSS THE TOP OF THE DIAL. DO NOT RUN THE WATER OR FLUSH TOILETS. AFTER SEVERAL HOURS CHECK BACK TO SEE IF THE NUMBERS HAVE CHANGED.
